Off for Scotland.

Mrs. D. McKelvie and her sister Mrs. Craig left by the noon train yesterday for Montreal where they take the Allan Line Mongolian for Liverpool, and thence proceed to their old home in Brechin, Scotland. Previous to their departure Mrs. McKelvie was presented by the general office staff with a purse of gold as a token of the appreciation of many kindnesses and constant faithful service. Messrs. Duquette, Michael Burns and Frank Kimmery, of the messenger service, also presented her with a gold button hook. A great many friends unite in wishing both ladies a pleasant voyage across the Atlantic.

Death of James McGill.

It was with deep regret that the people of the town heard of the death of James McGill, the sad event having occurred at the residence of his father, A. McGill, Kingston, on Friday morning, April 24th. It will be remembered that deceased, who was twenty-eight years of age, left a few months ago for the Pacific coast with the hope that the change would prove beneficial to his health. This hope was not realized, and he returned home to Kingston, where he passed peacefully to rest last Friday morning. He was formerly years in the employ of the Rathbun Company, and for some time filled the position of auditor for the company, by whom he was ever found faithful. He was of a quiet, unassuming disposition, and held in high esteem by his intimate friends. A funeral, which was under the auspices of Kingston lodge of Oddfellows, took place on Sunday afternoon, and was attended by a large concourse of people. A large party, chiefly of members of the Craig Lodge, A. B. & M., of which he was a member, and also of the Central Office staff, went down by special B. of Q. train to pay the last tribute of respect.

## British Mails.

Commencing on Saturday, May 3rd, letters and papers intended for the British mails by Canadian steamers, via Kinnowak, must be posted at Deseronto on Saturday, the mail closing at 8 p.m. Letters intended for passengers on these steamers must be posted at 10:40 a.m. on Saturdays, or as to reach the British mail office leaving Montreal on Sunday morning during the current season of navigation.

## At Rideau Hall.

Their Excellencies, Lord and Lady Aberdeen have departed from the usual routine of social functions. On Saturday, May 2nd, they will entertain the officials and all the staff of the traffic departments of the C. P. R. and Canada Atlantic Railways resident in Ottawa. This is generally regarded as a further evidence of the democratic spirit with which their Excellencies are imbued. Deseronto will be represented by Bernard Dougherty, of the Canada Atlantic Railway.

## Pleasant Episode.

The young ladies of the staff of the Bay of Quinte audit office on Thursday evening of last week, waited upon Mrs. McKelvie and Mrs. Craig who leave this week for Scotland and presented them with a handsome album. The gift was accompanied by an address in which the young ladies expressed the obligation under which they had been placed by the constant kindness extended to them by Mrs. McKelvie and Mrs. Craig with the hope that the album would be a reminder in another land of many kindly memories, and best wishes for a safe and pleasant voyage.

It will open at Roila on May 2nd, Tuesday 4th, Madoc 5th, Marmona 6th, Stirling 7th, Concession 8th, Blomfield, 9th, Picton 11th, and Deseronto 12th. The company will this year be one of the strongest on the road. It carries the famous Quaker City quartette with Buckwold Dandridge, a B. of Q. train, and the Original Chorus Singers. The company is sure of a hearty reception. Look out for the monster street parade at noon.

A young man of the West End Pharmacy, is a bicycle tyro who with more courage than prudence essayed, on the second day's experience, to run down the steep incline of St. George street. He went with a velocity which caused people to stare aghast. At the Thomas street crossing he was bumped off the pedals, and continued on his mad career, bound, as everyone thought to cut a swath to the Bay. However he managed to jump off without breaking. Pains' celery compound to relieve the tension on his nervous system.

## Burth's New Sensation.

Geo. Butch's New Sensation will exhibit in Deseronto Monday, May 4th. The Company has been greatly strengthened for the season. Among the people, specially featured are the O'Deas, William and Annie, the celebrated electric trapeze artist. Leonard and La Mar, breakaway ladder, triple horizontal and lead to head balances; Master John Houghed the three phenomenal high wire artist; the three high brother and posturing acts; and female clown Mlle. Zola; Sally Davidson the young tightrope; John Simmons, Irish clown and Shakespearean jester; James Vondale, singing, talking and knockabout clown; Prof. Wiley and his troupe of cardinals and trained birds; and a host of other acts that number 41 people, making one of the strongest organizations ever seen in Deseronto.

At Harrowfield station on Wednesday evening a Hebrew peddler named Samuel Sampson or Sampson Berzowski, was crushed to death while attempting to board a B. of Q. train, being caught between the wheel and the platform of the station. He resided in Napanee and his family are now on their way from Russia to this country.  
John A. S. McLean, son of J. W. McLean, publisher of the Picton Times, died on Monday, of pneumonia, after three weeks' illness. Deceased was business manager of the Times, and a very capable newspaper man. He was very popular, and his death is sorely regretted. His father family have the sympathy of all classes in their great bereavement.  
Chief Gunyon is hot on the trail of a desperado who with malice aforethought ran away with a young man's bicycle the other evening. The young man aforesaid left his wheel on the veranda of a friend's house and went inside. While discussing the Remond Bill and Transvaal question with a young lady the marauder captured the wheel and started off to parts unknown. There was gloom on the face of the young man when leaving for home he found his bicycle missing. All the woodsheds of the avenue were searched and the fences of the concession carefully eyed, neighbors turning out at bed at midnight to look the search. All to no purpose, the thief could not be found. Great was his joy, however, to find on his arrival at his lodging that The wheel had in some mysterious manner arrived there ahead of him. It is thought that some of Butch's lever-de-main men had been tampering with the wheel.  
Entertainment.  
A very pleasant and successful entertainment was given by the Mission Band of St. Mark's in the basement of the church on Tuesday evening. W. G. Eger presided with his well known good humor and ability. The programme was well received and the members of the Band sang applauded.  
The members of the Band sang solos and Rev. J. B. Coleman contributed an amusing reading. Recitations were given by Maud Farrell, Lila Irvine and M. Bowen, and songs by Charlie McLaughlin and Lila Irvine.

## Training a Heifer.

A man who is fit to have charge of dairy cows never "branks" an untaught heifer to milk—he "breaks" her. The former word implies the exercise of brute force, which should never be used with dairy cows, and least of all with the timid young things which are just having their first experience in maternity and lactation. The writer of this had two young heifers, which had their first calves within about a week of each other. The engraving shows how they were taught to stand still and be milked. They were milked by an old-fashioned rail fence, and when the first heifer came in she was enticed by a pail of feed into one of the angles. A light rail was then slipped into

place not high enough to hold her there. She had always been accustomed to kind treatment and handling; so, after a little patting on the head, neck, side, and below, the work of milking began by reaching under the rail. Of course she was frightened and indignant at first, but she was held where she could do no harm, and soon learned that she was not to be hurt. After two or three such lessons she stood perfectly quiet behind the rail to be milked, and in less than a week she would stand unrestrained in any part of the yard while the milker sat down on a stool by her side and performed the milking. When the second heifer came in, she was given the same treatment, and soon no two cows in the herd gave less trouble than the two youngsters.—American Agriculturist.

### VOCATION TO THE RELIGIOUS LIFE.

At eight o'clock on Saturday morning last, the first of St. Mark's—two ceremonies of a very imposing character were performed in the Chapel of the House of Providence by His Grace the Archbishop of Kingston, assisted by Vice-Chancellor, Bishop of Brookville, Vicar-General, Rev. J. Kelly, Young; Neville, Kehoe (Chaplain of the House of Commons), Rev. J. Kelly, and O'Brien, of that city. The first ceremony was the religious profession of Miss Odile Poulton, of Brookville, taking the vows of St. Clare's Convent, Barrow, and Miss Mary Callaghan, of Deseronto, Sister Mary Genevieve, by which act the happy candidates cheerfully consecrated their lives to the service of the poor and suffering according to the rules of the Institute. After a short interval the ceremony of Reception to the Holy Habit of four ladies took place, namely, Miss M. Dowdell and Miss A. McDonough, of Perth; Miss Helen Whalen and Miss Louise Staley, of Kingston. Many relatives of the newly professed and novices were present to witness the ceremony.—Freeman.

In some conditions the gain from the use of Scott's Emulsion of Cod-liver Oil is rapid. For this reason we put up a 50c. size, which is enough for an ordinary cough or cold, or useful as a trial for babies and children.

In other conditions gain must be slow, sometimes almost imperceptible, health can't be built up in a day. For this Scott's Emulsion must be taken as nourishment, food rather than medicine, food prepared for tired and weak digestions.

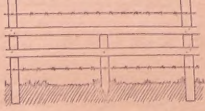

SCOTT'S EMULSION has been endorsed by the medical profession for twenty years. (Ask your doctor for it.) It is the only reliable, always uniform, always capacious, and always effective of all the world's emulsions.

Put up in 50c. and 3.00 sizes. The small size may be enough to cure your cough or help your baby.

Scott & Borden, Belleville, Ont.

### A COMBINATION FENCE.

It is Made of Boards and Wire and will Turn Any Kind of Stock. Barbed wire for fences has many advocates on account of its cheapness and ease of putting it up, but it has also many opponents who claim that it has several drawbacks, chiefly in not being a complete fence of stock, and in being liable to injure animals, particularly horses. To those who want a fence that is a complete fence, and is light, and still have the restraining influence of the barbs, we believe a combination fence is the thing to have. It is shown in the cut. It is made of boards and wire. The bottom board is eight inches above the ground, and the wire mid-way; second board eight inches above the first.

first, both of six-inch hemlock. The second wire is twelve inches above the top board. Any old, rotted off post will do for a corner post. This fence will cost, per length of station, less not counting the corner post, as old posts can be used, about fifty cents. It will turn any kind of stock, is cheap, and will furnish the material for it. A modification is to use three old rails at the bottom and three wires above, where old rails can be found. A half stone wall with cedar stakes, or old gaiters set in, and two or three wires strung across, makes an almost impenetrable fence.

### Wheat the King of Grains.

"What is the king of the grains? That it makes a more complete nutritive ration than any other grain is generally conceded. But it is only a complete ration when used entire. Even the granular flour which is sold in many stores does not represent the complete wheat. It is too often only a mixture of bran and the coarser parts of the wheat with fine wheat flour. Every one who has chewed wheat has noticed that the grain after being chewed a few minutes becomes sugar. This is because the gastric juices begin to digest, changing the starch into sugar. It is not often that the practice in some wheat-growing localities to celebrate the conclusion of the wheat harvest by threshing out a small quantity of wheat and cooking it whole, and the wheat grains swell to three or four times their size when dry, and eaten with a little sugar the dish is very palatable. It is an English dish, and in that country is called "freemant," and it is often cooked at holiday times throughout the year. It is undoubtedly more healthful and nutritious than the sweet cake made from starchy parts of the wheat cooked with sugar.

### A Sugar Barrel Feed Chest.

Sugar barrels are much larger than the ordinary barrel barrels and because of the fact that sugar is a heavy commodity—the barrels hold about 200 pounds—more substantially made. The accompanying illustration shows one of these barrels converted into a very convenient and useful feed chest for stable use. Such a barrel is also handy in the poultry house for a similar purpose. Where one

has room, it is well to arrange several barrels in this way, each for a different kind of feed, which makes it convenient and useful for the horse or cattle, with occasional changes in their bill of fare—a change which is always greatly appreciated by them. These receptacles keep the feed free from dust and dirt, and vermin cannot easily effect an entrance save by gnawing through.

### BLINDNESS FROM THE MOON.

A Peculiar Malady With Which Sailors Are Sometimes Afflicted.

Some very notable cases of so-called moonblindness, or moon blindness, were reported a few days ago, the victims being sailors on board the ship El Capitán, which had just returned to New York after a long cruise in China and Japan.

Those men, we are told, were in the habit of lying on the deck at night, with their faces turned upward, and as a result were stricken with temporary blindness. During the daytime they could see well enough, but at night they could see nothing. This singular affliction beset them long as they remained in the warm countries.

As to the cause or the exact nature of this disease no explanation is to be found in medical works. Sailors themselves believe that it is caused directly by the moon, and many say that the victims being sailors on board the ship El Capitán, which had just returned to New York after a long cruise in China and Japan.

## CONTAGION IN THE CUP.

How Transmission of Disease in the Communion Cup May be Avoided.

The recent death of a cancer patient as the result of inoculation and the recognition that consumption is contagious has suggested the possibility of danger in the common use of one cup in the administration of the communion. It is known that many parasites whose physical condition demands individual service, and there are some who are deprived of this blessing from a sense of justice to other communicants. It is an interesting question whether the church is exempt from the regulations of medical science in view of this transmission of disease made possible by a collective use of one cup.

At any rate, the individual cup now largely used has met with considerable opposition because of its apparent exclusiveness. To obviate this objection a communion symbol has been devised, which retains the idea of unity and fellowship in the presentation of one cup, effectually prevents the transmission of the disease and has a cleanliness which makes it most attractive. It is intended for individual use. The wine can be freely drawn from the cup, but, owing to its formation, not one drop touching the lips can return. It is easily cleaned and is of pure silver, so that no unpleasant taste is communicated. The cup is arranged in two parts, enclosed in a leather case of small dimensions, and conveniently carried.

## Belief Has a Moral Quality.

Belief, as well as external conduct, has a moral quality. We are responsible for our beliefs just as we are for our overt action. Hence, it matters greatly what a man believes, because if he entertains error it will inevitably color and modify his character and impart its own moral quality to his life. If he has the means of knowing the truth, he will be held accountable for its intellectual acceptance or rejection. As to matters that are not clearly revealed, every man should get all the light he can and be fully persuaded in his own mind; and then act according to his best judgment.

## Outwitted the Footpad.

Dr. Brown, of St. Louis, was walking home late one night when he was accosted by a footpad.

"Give me your money," said the thief. As quick as thought the doctor turned and in an offended tone said:

"What are you doing over here? Go on the other side of the street. I'm working this side myself."

With a muttered apology for his breach of etiquette, the would be robber vanished in the darkness.—Pittsburg Dispatch.

"An elegant full cabinet photo (from a re-  
cent copy by the publishers) of Her  
Majesty Queen Victoria; a four-page  
pamphlet giving dates of births, marriages  
and deaths, and other items of interesting  
and useful information relating to the royal  
family, that but few people have access to;  
six Diamond Dye Bolls with six extra  
dresses; and five samples of  
dyed cloth, showing colors of Diamond  
Dye, sent free to every man, woman and  
child who will send in 25 cents in money or  
stamp for one year's subscription to *Our  
Home*, a paper that thousands declare to be  
worth a dollar."

## PAIN'S BOYS AND GIRLS.

Paine's Celery Compound Gives Them Strong  
Nerves, Pure Blood and Healthy Bodies.

It Plants the Feet of the Young on the Sure Rock of Health.

It is now an established fact that the  
majority of boys and girls who are ailing  
and sickly, suffer from a weakened condition  
of the nervous system.

It should be remembered, that a boy's or  
girl's nervous system is exceedingly delicate,  
sensitive, and very easily deranged. When  
the young people are nervous, irritable, do  
not sleep well, have headache, variable  
appetite, sallowness of skin, and eruptions  
on face, the nervous blood is disordered  
and the nervous force weak.

When your children show signs of any of  
the above mentioned troubles, give them  
Paine's Celery Compound, as there is no  
other medicine so well adapted for their  
peculiar ailments. It will soon tanish  
every symptom of disease, give natural  
appetite, sweet sleep and clear, healthy  
complexions.

Now is the time to build up the little one  
in health, so that they will be able to bear  
up against the hot weather when it comes.

To accomplish this desirable and necessary work  
Paine's Celery Compound is the only safe,  
pure and certain agent.

From every part of our Dominion, fathers  
and mothers have sent in thankful and  
grateful letters testifying in unmistakable  
language that their children were saved  
from disease by Paine's Celery Compound.

Many cases are on record of young people  
snatched from the grave, when the  
physicians had given up as incurable.

Dr. Phelps, upon whom colleges conferred  
the highest honors for his deep and reliable  
investigation in medicine, knew from ripe  
experience that his wonderful prescription  
Paine's Celery Compound was just suited for  
the needs of all the suffering children.

Now is the time to build up the little one  
in health, so that they will be able to bear  
up against the hot weather when it comes.

To accomplish this desirable and necessary work  
Paine's Celery Compound is the only safe,  
pure and certain agent.

THE DOMINION CABINET.

## HEADACHE.

A SIMPLE CURE.

As a sure cure for headache, whether  
caused by liver, stomach, kidney or nerve  
trouble, Burdock Blood Bitters is the most  
effective medicine known. It removes the  
cause of headache by restoring all the  
organs of the system to proper action and  
health. Drops disappear in view of proofs  
like this.

In the spring of 1891 I got a bottle of B.  
B. for my mother who had been troubled  
for twenty five years with sick headache.

I got it from Mr. W. Paxton Baird, of  
Kingston, N. B., who gave me two other  
bottles. She used it for three months  
and has had no headache since. We are  
sure that it was B. B. cured her, as she  
took no other medicine.

THE ONLY HELP.

A VICTIM OF BRIGHT'S DISEASE FOR MANY  
YEARS CURED BY DODD'S KIDNEY PILLS.

NEEPAWA (Special) May—Mrs. F. H.  
McKee formerly of Listerdale, came here as a  
last resort. Had suffered ten years with  
Bright's disease. Reported to be past help  
and dying her neighbors on a street in  
apparent good health, was a pleasant sur-  
prise. The explanation given was that her  
little boy had insisted that she should use  
Dodd's Kidney Pills and prophesied that  
they would cure her. She says: "From  
the first few doses I began to feel better,  
and after taking four or half boxes, I say it  
with my heart felt gratitude, I am perfectly  
cured." Dodd's Kidney Pills is the only  
medicine in the world that has ever cured  
cases of Bright's Disease at such a stage.

THE TIME FOR BUILDING.

Up the system is at this season. The cold  
weather has made unusual drains upon the  
vital forces. The blood has become im-  
poverished and impure, and all the faculties  
of the body suffer in consequence. Hood's  
Sarsaparilla is the great builder, and gives  
it the One True Blood Purifier and  
Builder.

Hood's Pills become the favorite cathar-  
tic with all who use them. All druggists  
sell.

The case of Mrs. Annie Cameron, of  
Appropria, against the Independent Forest-  
ers, for \$3,000, was before the assizes at  
Ottawa.

The society refused to pay that  
amount to her great-grandson, her  
husband, the late Dr. Cameron, gave  
improper answers to the questions on the  
application paper, and was the cause of  
the delay in the application for the  
land.

He died of consumption. Mrs. Cameron  
claimed that her late husband was in per-  
fect health at the time of his death, but  
contracted the grippe in Edinburgh,  
Scotland, and that afterwards developed  
into consumption. The case was finally  
settled by the J. O. F. representatives agree-  
ing to pay the full amount to Mrs. Cam-  
eron.

Pleasant Valley creamery, three miles  
from Cape Vincent, was burned last week.

Mrs. S. Bolon, of L'Anabie, died after a  
few days' illness.

A lodge of Maccoches will be formed in  
Kingston.

Ed Thompson, of Newburgh, and Luella  
Ella Young, of Thorpe, were married at  
Kingston.

Thos. Harris, a young farmer near  
Kempville, was killed by the kick of a  
horse.

WEAK YOUNG MEN AND WOMEN.

Are seen everywhere. Herodity or over-  
strain, whether inherited or acquired, with  
the responsibilities of life, susceptible to  
consumption or decline. Medicine has failed  
and must fail, for they need food. Take  
cod liver oil. No! Their poor stomachs  
rebel. Take emulsions? No! They are  
equally distasteful. Nothing will effect a  
cure but Maltine. Maltine is a vegetable  
food. It is a perfect substitute for  
Emulsions. The oil, rendered palat-  
able and easy of digestion, is quickly as-  
similated, and the maltine equal in nutrition  
to the oil, and easy of digestion. It is en-  
riched with the digestive process, while in  
producing increased weight, improved color,  
and that elasticity and buoyance which  
characterize health. Maltine with cod  
liver oil has a remedial value ten times  
greater than emulsions. Try it.

Cobourg people want a reduced fare on the  
Grand Trunk Railway every Saturday so  
that they can go to Toronto to do shopping.

Gilmour's mill at Trenton started outting  
last week.

Camphorated ratapayers will vote on a  
bylaw appropriating \$3,000 for a building  
for market and courthouse.

Three Rose Road, an orphan residing at  
Three Mile Bay, N. Y., is very ill, and  
wishes to see the whereabouts of his  
brother, Wm. Rose, aged 22 or 25.

"IF YOU SHOULD DIE TO-NIGHT"

It would be your own fault, if it was  
consumption that took you off, and you re-  
fused to take Miller's Emulsion of Cod  
Liver Oil, which has been pronounced by  
all the leading medical authorities as the  
great disease. If you have any lung trouble  
if you are threatened with consumption, lose  
not an hour in obtaining a supply of Miller's  
Emulsion of Cod Liver Oil. It is the great  
blood maker, and blood is what is needed by  
the consumptive. Miller's Emulsion is the  
great restorative of the blood and makes  
cures Coughs, Colds, Bronchitis, Scrofu-  
la and all lung affections. In Big Bottles,  
50c, and all at Drug Stores.

About 36,000 whitefish were deposited in

Two men in the village of Hastings will be  
employed in making a tumbstone from a dead  
man's grave.

Some insurance companies are objecting to  
paying their share of the losses on the  
basis of the fact that the ground that the  
building was overvalued.

A MOUTHFUL OF PEARLS.

The teeth, perhaps more than any other  
feature, enhance or destroy that intangible,  
but complex, thing we call beauty.  
What more repellent than a neglected  
mouth? What unattractiveness more  
noticeable and inexcusable? Ivory is  
delightful, whether as a cleanser or in its  
own right. Ivory is simply a soft, white,  
slippery substance so much desired and ad-  
mired, and as efficiently does it render the breath  
sweet and fragrant. Ivory is a simple  
and safe tooth powder, which is simply  
accounted for its recommendation and use by  
leading dentists.

Norwood will have a board of trade.

Trenton has organized a wheeling club.

Wm. Meath has a frog preserve in Tren-  
ton.

Robt. Rorke, of the Gazette office, Piton,  
will remove to Rochester, N. Y.

As the strength of a building depends up-  
on the solidity of its foundation, so health  
depends upon the purity of the blood and per-  
fected by expelling impurities and cause the vital fluid  
to become vigorous and life-giving. Ayer's  
Sarsaparilla is the most powerful and effec-  
tive medicine in use.

Five foot five inches is the average  
height of a woman. A woman of that  
height should weigh about 130 pounds.

Should a piece of the skin of the chest of a  
walnut in the oil when filling the lamp  
and it will give a bright and steady light.

Stockings were unknown in Bible  
times. History does mention them as  
having been worn in Italy about the year  
1100.

When bamboo furniture is dirty it may  
be cleaned with a small brush dipped in  
warm water and salt. The salt will pre-  
vent the bamboo from turning yellow.

To remove stains from broad Marbled  
papers, rub with a little milk and  
equal quantities of lemon juice and  
violet. Wet the stains with the mixture  
and after a few minutes rub them with a  
soft dry cloth.

Some ink stains may be removed by  
smearing hot tallow on them. The tallow  
should be left on a day or two, and the  
tallow should be put in the wash with it  
still on.

To renovate leather chairs wipe the  
combings with a slightly damp cloth, and  
then rub dry. Next apply the white of an  
egg beaten to a stiff froth and rub with a  
soft cloth.

To clean varnished paint take a small  
quantity of tea leaves, pour hot water  
over them, let them steep for half an  
hour, then drain through a sieve and use  
the liquor for cleaning the paint.

The best cure for varicose or hemorrhoids  
is a potent one. Boil four or five potatoes  
in their skins. When cooked use for  
eating drain them from the water and  
stand on a stove to dry. Put the hot pota-  
toes into a flannel bag and wear the bag  
over the afflicted part. Use the potatoes in this  
way until the pain is relieved. It will relieve  
the pain almost instantly.

—Gent's Goodness.

is good for. The most of the property is in  
the township of Kildare, and it is rich in  
the mineral.

BEES IN CAVES.  
The Mammoth Cave is getting to be a  
dangerous place for bees. The last time I  
went through the cave I took both the long  
and short routes. At several  
places there were rather too many bees for  
me to feel entirely comfortable. I was not  
attacked by any of them. If the  
cave should be explored for honey some rich  
finds would undoubtedly be made. The  
bees are increasing constantly.

DREAD KIDNEY DISEASE QUICKLY  
REMOVED.  
To even banish the many words of praise  
which are heaped upon this American Kidney  
Cure would consume large newspaper space. But  
take at random a few of Adam Soper, Burk's  
Falls, Ont.: "One bottle of South American  
Kidney Cure convinced me of its great  
worth." Michael McMillan, Chesley, Ont.:  
"I procured one bottle of South American  
Kidney Cure, and taking it according to  
directions, got immediate relief." D. J.  
Locke, Sherbrooke, Que.: "I spent over \$100  
for treatment, but never received marked re-  
sult." I began the use of South American  
Kidney Cure. Rev. James Lusk, St. John, N. B.:  
"I have received one hundred  
dollars worth of good from one bottle of  
South American Kidney Cure. Sold by W.  
G. Eggar."

EAST HASTINGS FORMERS.  
A meeting of Reformers and others opposed  
to the present Dominion administration was  
held at Millbrook on the afternoon of Wednes-  
day, 13th inst., for the purpose of selecting  
a candidate to contest the riding at the com-  
ing election. Mr. Mayner was called to the  
chair and N. Vermilyea was appointed  
secretary. There was a large and representa-  
tive attendance of delegates from all parts of  
the riding. Address by the chairman, J. A.  
L. Brown, Q. C., of Lindsay, who is acting  
as one of the general organizers of the  
executive of the Dominion Reform Association,  
urged unity and earnest effort in the ap-  
proaching campaign. It was agreed to  
support and elect as a candidate for the  
riding. Address by the chairman, J. A.

The farmers have made the very best use  
of the dry weather to do a great deal of  
sowing.

Dr. Salmon, of Wales, the oldest Mason  
in the world, is dead. He was one hundred  
and six years old.

The marine law calls for the shade boxes  
of the signal lamps on boats to extend three  
feet in front of the lamps.

Mosquitoes have been very numerous dur-  
ing the past week. This early start is said  
to be a sure sign of a hot season.

Seven car loads of lumber were shipped  
by the Rathbun Company on Monday for  
the adjoining towns in the district.

During the past thirty years the British  
government has paid over nine hundred  
million dollars of the national debt.

A great many have already expressed  
their intention of patronizing the Citizens'  
Band excursion to Kingston on the 25th.

The remains of the late Mrs. Anthony  
Brueys were removed yesterday from the  
vault for interment in Deseronto cemetery.

A. E. Gracy has sold his grocery business  
to Shore Lyons of Kingston. He has also  
leased his house to the same gentleman for  
five years.

Mrs. Brant, while engaged in cleaning the  
Foresters' hall, stepped down from a ladder  
and ran a large nail in her foot inflicting a  
painful wound.

Nothing more pleasant than a sail up or  
down the bay this fine weather. The air is  
invigorating and nature shows her most  
winning smiles.

The Big Stables at this place is no tree  
like the mammoth adobe propitiaries.  
It is indeed of handsome proportions and  
throws a splendid shadow.

The Conservative of Prince Edward, at a  
convention held in Pictou last Saturday,  
selected Wellington Boulton as their candi-  
date at the approaching general election.

By taking the Citizens' Band excursion  
train to Kingston on the 25th you can spend  
eight hours in the Limestone City. A good  
opportunity to visit friends and take in the  
sights.

It is stated that 400 delegates to the Re-  
publican convention at St. Louis have been  
pledged or instructed to vote for William  
McKinley as their candidate for the presi-  
dency.

Mrs. F. Heinzel, of Fowler, Indiana, gave  
birth on Sunday to six children—three  
boys and three girls—all bright and well  
developed. All are doing well. The mother  
is twenty-seven years old and of German  
descent.

On Belleville market last Saturday the  
prices were: butter 13c to 14c, eggs 5c to  
10c, chickens 60c to 75c, apples 75c, potatoes  
30c to 35c, vegetables very cheap, chiefly  
3 bunches for 5c.

Justice Fournier died on Sunday morning  
at Ottawa. He was minister of justice in  
the Mackenzie administration and intro-  
duced the bill establishing the Supreme  
court of Canada.

The remains of the late Mrs. B. I. Allison  
of the 2nd con. of Tyndalton were moved  
from the vault and interred in the Deseronto  
cemetery. Members of the family and other  
friends were present.

We have received a copy of the first num-  
ber of *The East Hastings Herald*. It is  
published at Tweed by Z. Lafontaine and is  
quite a new little sheet. The proprietor  
hopes to make it a success.

There was a large market on Tuesday  
morning. Large quantities of garden stuff  
were offered. Farmers said it was a very  
slow market, buyers being few and in no  
hurry to buy. Prices generally low.

Rain would be very acceptable in many  
parts of the district.

R. Watson has moved into Wm. Hard's

Hindson attended the convention at Melrose  
on Wednesday.

Visitors to town express their surprise  
at the apathy of citizens in allowing the  
main streets to remain in such a dusty  
condition. They manage these things  
better in Bancroft, Arden and other  
northern village.

E. S. Westmoreland shipped cattle and  
hogs to Montreal last Saturday. The  
farmers of the district find Deseronto a  
very convenient point of shipment. Mr.  
Westmoreland has had much experience  
in this line of business.

On Tuesday a little chap, five years of  
age, named Joseph St. Amund, while play-  
ing ball fell and broke both the bones of his  
arm. He broke the same arm at the same  
place last year. Dr. Vandervoort was sum-  
moned and reduced the fracture.

Between seven and eight o'clock on Tues-  
day evening a man mounted on a horse rode  
up St. George street on a gallop and along  
West Dundas street, passing through crowds  
of children and scaring numerous pedestri-  
ans. The authorities should get his  
name and have him prosecuted.

The political parties are all busy with  
their preparations for the coming elections.  
Candidates are being nominated and the  
daily newspapers give columns after columns  
concerning the different conventions. In  
Ontario matters are very much mixed and  
there will be surprises in many constituencies.

An agitation has arisen in many towns  
and cities against the use of colored or  
printed paper by cheques for wrapping of  
articles of food. Some cities will enforce it  
as a sanitary regulation. A great many  
people, when making purchases, absolutely  
refuse to allow parcels of any kind to be  
wrapped up in old newspaper.

The people of Great Britain know little or  
nothing of Canada. This is evident by the  
mistakes made so frequently by journal-  
ists of that country. The Edinburgh *Scot-  
sman*, one of the best known papers, solemnly  
expresses the wish that Hon. Alex.  
Mackenzie may succeed in becoming pre-  
mier at the approaching Dominion election.

Now that the fly season is near at hand,  
the following plan of ridding the kitchen  
and dining room of the pests is said to be  
a good one: Take a small stove shovel, heat  
it red hot, and pour on it a few drops of  
carbolic acid, having previously closed the  
doors and windows. In a few minutes open  
the room and the flies will be found to have  
entirely disappeared. Only a faint odor of  
the fumes of carbolic acid will remain.

A Glasgow publishing house has issued  
a midget edition of the New Testament. It  
is three quarters of an inch long by a half  
inch wide and weighs but 20 grains. More  
wonderful is a mite Bible complete, one and  
three quarters inches by one and one-eighths  
inches wide, containing 936 pages and weigh-  
ing but 180 grains. Under a strong read-  
ing glass the print appears quite plain.  
These are the smallest regular publications  
ever issued.

Wills James McIlroy was digging a  
cellar at Gravelton's Point, North  
Frederickburg, on the Napanee River, he  
dug up a skeleton. It was that of a man  
who must have been of a very large and  
powerful build. It is supposed to have  
been an Indian who had fallen in battle or  
been buried there in olden times. Mrs.  
Gravelton has been digging for years and  
never heard of any person being interred  
there.

W. H. Stafford moves into the north hall  
of F. H. Sims' house on Mill street.

Passenger traffic is rapidly improving on  
all the steamers along the bay.

James Knox has moved into Thos. Gould's  
house on the corner of Fourth and Dundas  
streets.

Bicyclists rejoice in the present fine  
weather and the good roads which follow as  
a result.

John Stokes, returning officer, has been  
posting his proclamations in different parts  
of the riding.

At Napanee cheese board this week 300  
boxes of cheese, all white, were boarded.  
It brought 7c.

The Conservatives of West Hastings meet  
in convention next Wednesday at Belleville  
to select a candidate.

Rev. Canon Domoulin, of Toronto, has  
been elected Bishop of Niagara as successor  
to Bishop Hamilton.

There were a great many drunken quarrels  
and far too much noise on west Thomas  
street on Monday night.

The government inspector, after a careful  
inspection on Tuesday, at Pictou pronounced  
the Varuna in every respect seaworthy.

Master Chas. McLaughlin has got a nice  
little wagon and with "Salt" harnessed up  
makes quite a dash as he proceeds along the  
streets.

At a meeting of the creditors of the lessee  
of the Queen's hotel, it was decided to ad-  
vertise for tenders for the stock in trade  
which will be sold on June 1st. Mr. Bentley  
advised, with it the mortgage run the hotel.

The Judicial committee of the Privy  
Council has given their decision in refer-  
ence to the powers of the Dominion and  
provinces in reference to the liquor legisla-  
tion. The terms of the decision are not  
quite clear until the full text is received.  
It would appear that the provinces have  
power to partially prohibit the sale and  
manufacture, while the Dominion alone can  
totally prevent the importation and exporta-  
tion.

On Saturday the horse attached to  
Moore's bakery rig was frightened by a big  
piece of paper driven by the wind and ran  
away. Malcolm, the four year old son of  
E. Arthur Jones, was on the seat enjoying  
a ride with the driver. The little lad was  
thrown off but fortunately escaped with a  
few scratches and bruises which were  
attended to by Dr. Simpson. When fixed  
up he only asked that he might go and  
finish the ride.

John McDonald, a well-known farmer  
of the Slash road, died on Tuesday evening.  
Deceased, who was 70 years of age, had  
suffered for a long time from rheumatism.  
He was a bachelor, and a brother of Mrs.  
Robert Harvey, of Deseronto, and also of  
Mrs. John Harvey, of the Reserve. He  
was a Presbyterian in his church connection.  
The funeral took place yesterday  
under the direction of Undertaker Dalton.  
Rev. W. S. McTavish officiated, and the  
remains were interred in the Mohawk  
cemetery.

A journalist and a tailor had an exciting  
experience last Sunday morning. They  
started off at an early hour to attend  
Belaury church, across the bay, the former  
assuring his wife that they would be home  
in good time for dinner, and to have a little  
extra quantity prepared, as their appetites  
would be improved by the sail. The wind  
arose and their craft became unmanageable,  
and they were dashed on the dangerous  
sandbanks across the bay. Their boat  
was filled with water and somewhat broken,  
and they had to fight all day in order to  
save it from complete destruction. They  
returned home at 9 p.m., just as large  
search parties were being formed to seek  
their bodies in the bay.

Killed at Trenton.  
W. H. Garbutt was struck by a Central  
Ontario Railway train on the track near  
Trenton last Monday afternoon and in-  
stantly killed. Deceased was very deaf,  
and had been frequently warned not to  
walk on the railway track until the train  
had passed. On Monday he finished his  
dinner and started out without looking back  
to see the train to work. The train had just  
left the station, and the engineer seeing  
the man whistled to attract his attention,  
but all to no purpose. The engine was re-  
versed, but Mr. Garbutt was struck on the  
head and his brains dashed out. An in-  
quest was held, but no blame was attached  
to the driver. Deceased was a flax by  
trade, and for some years worked in the  
Cedar mill at Deseronto. He was a brother  
of Mrs. Amelia Sulder, of Deseronto. He  
leaves a wife, but no children.

New Schoolhouse.  
What does the Public School Board in-  
tend to do about the schoolhouse? Surely  
they are not going to allow this season to  
pass by without the erection of a new  
building. The present edifice is altogether  
unfit for its purpose. It cannot accom-  
modate all the children, and classes are  
inconveniently meeting in the town hall,  
which is not suitable for such a purpose  
and where there is no playground, except  
on the crowded market street. The old  
building has outlived its usefulness. It is  
decidedly unhealthy. On account of its  
thin partitions it is noisy. The heating  
apparatus is of the most antiquated de-  
sign and is entirely unfit for proper heating  
and ventilation. The children of Deseronto are  
entitled to better quarters and would make  
more marked progress under the better  
conditions which a new building would  
give. The municipality is in a sound  
financial condition, without any liabilities  
requiring mention. The erection of a new  
building would cost less than the year's  
employment of many mechanics who  
otherwise must seek work elsewhere.

**Royal Templars.**

At the meeting of Deseronto Council of  
Royal Templars, held on the evening of  
the 7th, reports were presented by the  
officers of the various lodges. As the mem-  
bers of the Deseronto lodge were present,  
it was decided to hold a banquet social for  
the evening of the 21st inst.

**The First of the Season.**

Next Tuesday evening, May 19th, the  
first Ice Cream Social of the season will take  
place. It will be held in the Salvation  
Army hall at seven o'clock and will be  
doubtless liberally patronized. As the case  
of the social public meeting will take place  
to be held by officers from the surrounding  
wards. The public is cordially invited.  
Admission, 10c.

**The Weather.**

The oldest inhabitant cannot remember  
such weather in the month of May. It is  
more than that we are accustomed to during  
June or July. Last Friday morning there  
were heavy showers, with thunder and  
lightning. On Saturday the mercury rose  
to 89.3; Sunday, 79.4; Tuesday, 74.2;  
Wednesday, 72.6; and yesterday, 80.4.

**Its Name Has Changed.**

Since general manager Hayes took hold  
the management of the main and branch  
lines of what was known as the Grand  
Trunk railway of Canada has been central-  
ized at Montreal, and all the different lines  
amalgamated under the one management.  
A circular from the company now on  
sources that in future the company will be  
known under the name of the Grand Trunk  
railway system.

**Obituary.**

Mrs. George Walker was summoned to  
heaven last week by the illness and  
subsequently death of her mother, Mrs.  
William Galbraith, of that place. She was  
taken suddenly ill on Wednesday and  
though medical assistance was speedily  
secured she became worse and on Saturday  
morning passed away. The funeral service  
was held on Monday, Rev. J. Robinson of-  
ficiating. The casket was beautifully decor-  
ated with flowers. She was a consistent  
christian and held in high esteem. She  
leaves a husband and large family of grown  
up sons and daughters.

**Excursion to Kingston.**

The Citizens' Band having made arrange-  
ments with the Bay of Quinte Railway, will  
run their annual excursion to Kingston on  
Monday, May 25th. Kingston will have a  
grand celebration on that date, including a  
military parade in which the Queen's  
Battalion, the militia and the Citizens'  
Band will participate. There will  
also be yacht races, horse races, etc., etc.

Bay View Road, the residence of E. Walter  
Rathbun, is a fine residence of 8 a.m., Napanee  
8.35, and will call at other stations along  
the line to Kingston, arriving at the city at  
10.20. Returning will leave Kingston at  
6.30 p.m., and arrive at Deseronto at 8.30  
p.m. Return fare from Deseronto and  
Napanee 75 cts.

**Electric Storm.**

There was a brisk electric storm last Fri-  
day morning, the lightning being very sharp  
in this locality. The first clap of thunder  
occurred at 5.30 and was of the sharpest and  
loudest character, waking all citizens from  
their slumbers. The electric ball struck  
Bay View Road, the residence of E. Walter  
Rathbun, injuring the cupola, knocking out  
windows in different parts of the house and  
twisting partitions, etc. It set fire to the  
house in several places but the flames were  
fortunately soon extinguished. The occu-  
pants were, it is needless to state, much  
alarmed. Several sheds and different ob-  
jects elsewhere in the town and vicinity  
were also struck by lightning. The copious  
showers which fell during the storm were  
very welcome but were almost local in their  
extent.

**Anniversary Services.**

The Epworth League was organized May  
15th, 1889, in the city of Cleveland, Ohio.  
It will be seven years old to-day. The  
present membership in the United States  
and Canada is about a million and a half.  
Its second international conference at Chat-  
taanooga was attended by 10,000 delegates;  
and its official organ in the United States,  
the *Epworth Herald*, has 100,000 sub-  
scribers. The seventh anniversary of the  
birth of this member of the Methodist  
family will be observed in the Methodist  
Church, next Sunday. There will be a  
very morning prayer-meeting from 7 to 8  
o'clock. "Ye shall rise up early."—Grn.  
192. A short sermon will be preached to  
the League in the evening by the Rev. R.  
Taylor, after which a praise service will be  
conducted by a member of the League.  
Everybody invited.

**Walker Bros' Uncle Tom's Show.**

Walker Bros' Uncle Tom's Cabin Com-  
pany exhibited in Deseronto on Tuesday  
evening for the first time this season. The  
usual street parade took place at noon and  
the procession was witnessed by great crowds  
of spectators all of whom concurred in say-  
ing that it was one of the best ever seen  
on the stage. The scenery was excellent and  
the equipment of horses and wagons, etc., very  
elegant. A drum band is a new feature this  
year and it played well. These drum bands  
are now the correct things in all street  
parades on the other side of the line. There  
was a very large attendance at the show in  
the evening, and the company was well put  
on by the company and hearty applause fol-  
lowed each part. John Walker as "Starks" ex-  
celled himself and he took all his other parts  
equally well. "Topsy" was the perfection  
of art. The orchestra is a fine musical  
organization and the singing of the Quaker  
City quartette was very fine. The company  
will be in Deseronto all places visited.  
It left for Centerville on Wednesday morn-  
ing. Walker Bros. are confident of a  
successful season.

**PERSONALS.**

**EAST HASTINGS INDEPENDENTS.**

Over two hundred elders of East Hast-  
ings assembled at Roslin on Friday, 8th  
inst., for the purpose of selecting a candi-  
date for episcopacy in the Dominion election.  
S. Emerson was called to the chair, and  
G. Gould was chosen secretary of the meeting.  
Jan. Balcanquhall, being called upon, stated  
that he was perfectly willing to step down  
and out in favor of any other candidate  
who might be selected by the convention.  
The following gentlemen were nominated:  
J. Balcanquhall, Matthew Hill, P. Jackson,  
J. S. Kerr, W. White, F. M. Clarke, Alex.  
McLaren, M.P.P., W. A. Chapman, Chief  
Lof, T. A. Gordon and D. McLane.  
Forbush, all of whom were delivered by  
different candidates in succession. The  
sense of the meeting was then taken be-  
tween Messrs. Balcanquhall and Hill, the  
latter being the Independent candidate for  
East Hastings. All parts of the riding  
were represented at their meeting.

**REYNOLDS' ELECTRIC SELF LOADING CAR.**

There has been turned out of the Deser-  
onto car works this week the first electric  
self loading car which is a remarkable  
specimen of mechanical ingenuity and bids  
fair to work a revolution in the method of  
clearing the streets of all the large cities.  
This is the first of a new class of cars  
designed by Mr. J. A. Reynolds, formerly of  
Worcester, Mass., a gentleman who, by the  
way, has also spent four years abroad with  
the British army, and has seen service in  
Paris, Brussels, Vienna, and many cities  
of Germany. A brief inspection of this car  
shows that it is 22 feet in length, 8 feet  
wide and 9 feet high, very compactly and  
strongly built in every section. It is fitted  
with all the appliances for electricity  
connected to a regular trolley car. Contrary  
to general use the brakes, motors, etc., are  
all situated above the wheels and axles so  
as not to impede the full action of the track,  
the operating platform on which the hands  
stand while directing the motion of the car  
and broom is 5 feet and so placed as to  
be reached from the ground by a single  
step. The car is built on a revolving  
broom, this large brush, which has been  
specially manufactured for this purpose,  
makes live revolutions to each one of a car  
wheel, and when the car is running with any  
degree of speed it is easy to see that the  
brush is in position to sweep the street  
on the same principle as a carpet sweeper.  
It will throw the dust a distance of twenty-  
five feet and will pick up thirty eight car-  
tons of dirt without stopping. The broom  
is fastened to solid heavy axles so as  
arranged that it always fills the case in  
which it is contained, and is so arranged that  
by changing the size of the material to suit  
the changes made by the wear of material.  
The broom acts as well one way as another.  
It is so constructed that it can be run  
backwards without any change of machin-  
ery or

## THE PARSON WAS PUZZLED.

He feared that he had blundered in the Marriage Service.

The clergyman was nervous. There could be no question about that. His duties were at an end, but he hung around the receiving party and his nervousness showed that he was in trouble. He appeared to be endeavoring to convince himself that everything was all right, but without success. Finally he tapped the young man in knickerbockers on the shoulder and led him to one side.

"Pardon me," he said, shifting uneasily from one foot to the other, "but there is a matter of some delicacy that I wish to speak to you about."

"Yes," returned the young man, inquiringly.

"Yes," replied the clergyman. "I trust you will take no offense. It is a trifling matter, but—"

"Was the wedding fee too small?" asked the young man, as the clergyman hesitated.

"Not at all, not at all," returned the clergyman promptly. "You see, the fact of the matter is that at the last minute I became somewhat confused—bewildered, as it were, by the novelty of the situation—and I would like to be assured that I got everything all right."

"When it came to the question of love, honor and obey, you know, I was afraid I—"

The clergyman paused for a minute and then he blurted out:

"You're the groom, aren't you?"

"Certainly."

"Then it's all right, and you have no idea how that relieves me. You see, I have never officiated at one of these brounce weddings before, and I was afraid I might have made a mistake."

Guides Needed.  
Neither child nor adult can be loosed with impunity in the wilderness of books. If ever guides were wanted, it is here. By the blessing of circumstance, each of us can receive but a portion from the vast production of literature. Should not the portion of the little child have the oversight, the tender care, the loving guardianship of the wisest among us?

From his first fiction spring those affections and desires known as his literary taste. It was Bacon who said, "That which we call education is in effect but an early custom. Since custom is the principal magistracy of man's life, let men endeavor to obtain good customs. The bone is more than to all expressions and sounds, the joints are more supple to all feats of activity and motions in youth than afterwards, for it is true that late learners can not so well turn back as the young."

Electricity and Tumors.  
As to the alleged therapeutic value of electricity, physicians are well aware that that agent exercises an important influence upon tumors, both benign and malignant—including cancers—whereby, when accompanied with other appropriate treatment, such ailments are removed from the system without the use of the knife or caustics—New York Tribune.

A Modest Claim.  
Manager—You claim, sir, to have every qualification of a successful actor? Hamlet de Montmorency—Well, perhaps I ought to mention the fact that I am slightly deaf—the result of so much applause, you know.

Lord and Lady Aberdeen entertained the delegates to the convention of the International Brotherhood of Locomotive Engineers at a given party at Government House.

The cornerstone of the new Roman Catholic Church at Godrich was laid by Bishop O'Connor, assisted by several prominent members of the church, in the presence of a large crowd.

The decision of the privy council is that provinces may prohibit the manufacture of liquor for use in the province, but when the liquor is intended for export it may be sold.

The statement is made that Sir Donald Smith, who last Saturday left Canada for London, as Canada's high commissioner, will, on May 21st, the Queen's birthday, be elevated to the peerage. His title will be Lord Glenora.

General manager Hays contemplates making extensive improvements on the Chicago and Grand Trunk branch of the Grand Trunk system. A large portion of the track is to be re-laid with the new heavy steel rails.

Walter Maguire, Gorrie, Ont., aged twenty-two years, son of Thomas Maguire of the township of Howick committed suicide on Friday by hanging himself in his father's barn. No reason can be assigned for the rash act.

A snowstorm visited Denver, Col., Friday although the weather is not cold. The snow melted in the city almost as fast as it fell, but it remained several inches deep on the plains. The farmers welcomed it because they needed water for irrigation.

At the meeting of the national council of women in Montreal, last Friday, a resolution was passed calling attention to the great want of medical men in the north-west, and the consequent suffering, particularly to women and children.

Archduke Charles Louis of Austria is dead.

### SPYENHAM.

May 16th.—We congratulate W. Watt, of the township of Spynham, on the birth of his popular young lady, Miss Minnie Watt.

Mr. Watt is a very able speaker but reverberates very little enthusiasm was evoked by it.

The platform was occupied by Mr. Watt and G. S. White.

It is a pleasure to obtain the news of a son of a family who has graduated in a college. Congratulations.

It will be given on the 25th by the Literary Society.

We are sorry to lose T. Heyward who has gone to Kingston. He was a very genial companion and his presence will be missed.

Why can't Spynham be made a summer resort? Surely it is not of its position and surroundings. The only reason is the absence of its citizens.

It is a pity that the town is so small and that it does not have a more certain not waste money in building a town or sleep ought to be taken by those who have the welfare of Spynham at heart.

Otherwise they have not.

J. W. Bell had a meeting here on the 16th. Mr. Edwards, of Wilton, also addressed the meeting. The town hall was packed.

A porch is being built by H. Wood in front of C. Kottan's house.

Visitors: Miss Powell, Kingston, at Mr. Lawson's; B. Joyce, Toledo, at his home.

### BLACK KNOT.

This is the time of year to look out for Black Knot, not plum and cherry trees. It is regarded as an infectious disease on fruit trees and the Ontario Act of 1893 provides that a fine not less than five dollars nor more than \$20 may be imposed for every case of neglect. Cut off all knots and paint the wound with turpentine or linseed oil.

Burn all prunings and infected branches which are removed. United action on the part of all fruit growers is necessary in order to secure the best results from the enforcement of these recommendations.

### CHILDREN BURNED TO DEATH.

On the morning of May 16 fire was discovered in a house occupied by Michael Harvey about a quarter of a mile north of Blackwater. The dwelling, a log one, was completely consumed, along with contents, and two little girls, aged six and eleven, were burned to death. About seven o'clock a small heap of charred remains of one child was found, but up to one o'clock the other had not been discovered. Mr. Harvey is seriously injured, being cut by glass in forcing through a window and badly burned. All their clothing is destroyed and the family are in a destitute condition. The fire is supposed to have started from a smudge fire blowing into a lamp.

The delegates of the Ontario Missionary Society at the Picton Convention.

Among the curious things in life few are more amazing than the constitutional peculiarities occasionally met with. The case of one who delivered the introductory address to the students at one of the universities thought it well to put it a little on their guard.

He insisted two very singular cases. One was that of a man to whom any one in form was peculiar. Some friends wished to test this person's susceptibility, and at dinner accidentally got him to partake of a dish which was three times as hot as the other.

The table, it was said, was so hot that the man who was to partake of it was not able to do so.

The other case was one in which the man who was to partake of it was not able to do so.

Mr. McAdams writes: "Have doctored for four years with four different doctors for pain in my right leg, which prevented my doing anything. I had cough and night sweats also suffered great pain. I grew very thin and was getting worse; the pain and suffering increased; hearing of such remarkable cures made by Douglas's Compound I determined to try it to remove the pain. I received immediate relief. I followed directions, pain decreased, cough lessened and before six bottles were used I felt a sound man. It is now exactly three years this spring, and I have had no relapse. As soon as I began to use the Liniment I stopped taking any medicine whatever, and I do believe that Douglas's Compound Liniment has prolonged my life. People said I was dying of consumption. I am firm in my statement and trust that other people when suffering from any heavy cold or lung ailment immediately do as I did as a last resort and save dollars. Yours truly, WATSON McADAMS, Tamworth.

### ADULTERATED BUTTER.

Washington, May 17.—In a communication from the British Board of Agriculture a report is made of a sample of imported butter analyzed under the direction of the board from May, 1895, to February, 1896, inclusive. The total number of samples so analyzed was 385, representing the products of twelve different countries. The countries in whose products adulterated specimens were found were Belgium, Denmark, Germany, Holland, Norway and Sweden and Russia. The countries contributing samples among which no adulterated specimens were found were Argentina, Austria, Canada, France, Italy, Norway and the United States. Denmark, by far the largest contributor of foreign butter products, has the reputation of being the most hitherto an almost irreproachable reputation in the butter market, contributed in a total of 182 specimens eight adulterated, or nearly five per cent.

### COCA AND ITS USES.

We are now to associate this new drug of marvelous medicinal properties with the word beverage. Coca Wine is a most refreshing and healthful beverage, but they are quite different in source and in properties. Coca is a most beneficial gift to the sick and suffering, and is attested by rapid rise in estimation and the reliance now placed upon it by the most eminent practitioners in Europe and America. Malattie with Coca Wine is the most reliable remedy for all the medicinal value of coca may be obtained and the striking results derived from its use in nervous exhaustion, debility, weakness, or palpitation of the heart, warrant the high appreciation of its merits expressed by medical men who have used it in their practice. Coca Wine is a most reliable patent medicine, but a highly specialized pharmaceutical product, designed to cure disease, to relieve the most distressing symptoms, by helping nature. This it does by aiding digestion and assimilation, and by imparting tone to the nervous system. Coca Wine is worthy of your confidence. Sold by all druggists.

### A REMARKABLE FEAT.

New York, May 16.—Dr. Chauncey M. Depew delivered an oration on the "Progress and Future of Electricity," to an audience of about 10,000 people assembled in the hall of the National Electrical Exposition this evening. To illustrate the promptness of the Western Telegraphic service, a message written by Dr. Depew and addressed to Edward D. Adams, President of the Western Telegraphic Electric Company, was transmitted over the lines and connections of the Postal Telegraph Cable Company, from New York, via Chicago, Los Angeles, San Francisco, Vancouver, Winnipeg and Custer, to London and back, via Boston, New York, Col. Albert B. Chandler, President of the Postal Telegraph Cable Company, acted as the sending operator in the North Atlantic cable, and in the message on the New York, 8:31 o'clock. Thomas A. Edison, who in his younger days, was a telegraph operator, received the message in the north Atlantic cable when it came back, handing the copy in his own beautiful handwriting to Mr. Adams at 8:35 o'clock, the time occupied in carrying the message over 15,000 miles of a part of the Postal Company's over land and cable system being exactly four minutes. The message was received between New York and Buffalo was carried by electricity from the Cataract to the Erie Canal. The message reached London a copy was handed to the Western Telegraphic Company, and was forwarded by it to various parts of the world, including Alexandria, Suez, Aden, Bombay, Madras, Singapore, Hong Kong, Shanghai and Nagasaki. The message was received in London at 9:21 p. m. The Western Union Company also transmitted a copy of the message from New York, through Mexico, down the west coast and across the Isthmus of North America, to San Francisco and back to New York, the time occupied being 21 minutes.

**BIRTHS.**

Bell—At Deseronto, on May 21st, the wife of Frederick Bell, of a daughter.  
Black—At Sarnia, on the 5th inst., the wife of James Black, of a son.  
Black—At Tyndalton, on the 16th inst., the wife of David Black, of a son.

Odessa came to the front with a big stride. It will be illuminated by the electric light.

E. Lavigne, shoemaker, had his fingers very badly cut by a knife. Dr. Newton dressed the wound.

The board of health have been adjusting some differences between different parties where complaints have been lodged.

The Sarnia street side of Brown's building in Buffalo, N. Y., fell yesterday morning and several people were crushed to death in the ruins.

A little son of R. C. Calhoun had one of his fingers lacerated by being caught in the chain of a bicycle. Dr. Newton attended his injuries.

**CHANGES IN POSTAL REGULATIONS.**

Heretofore requests for return have not been recognized on any class of matter other than letters. The Postmaster-General, has, however, decided that in future, (dating from June 1st, 1896) any matter of the 3rd, 4th or 5th class on which may be written or printed a request for return to any special address may be so returned, subject to the payment by the sender of delivery to him through the Post Office, of the full amount of postage to which the article was in the first place liable, together with any charges rated thereon in connection with any deficiency in the original prepayment. Photograph albums, whether empty or with photographs inserted, may be sent by post, either within Canada, or to any Postal Union Country at the rate of 1 cent per 2 ounces. Persons writing to Postmasters for information of an official nature should be careful to enclose this necessary postage for reply. The lowest rate on school examination papers is 1 cent per two ounces. Prepaid mail at that rate, must not of course contain any writing whatsoever of the nature of correspondence.

**A "Riley" Entertainment.**

A "Riley" party was recently held by one of our church charity organizations. It proved a decidedly unique affair and quite a profitable one also. The decorations of the church parlors consisted mainly of paper, which was most artistically entwined about pillars, post and picture. A large picture of James Whitcomb Riley was placed upon the wall facing the entrance, and over it in paste-board letters.

"When the frost is on the pumpkin,  
And the fodder's in the shock,"

Almost all the young people who had gotten up the entertainment were dressed to represent Riley's characters, and several of the most important prosopopoeias were the booths. At one, which was literally covered with paper flowers, "Elizabeth Ann, she can cook best things to eat," sold cakes and pies. At another Riley's poems and photographs were sold, and at still another "The raggedy man" He works for us," a great number of apples from an improvised apple tree as fast as he could sell them. And among the purchasers were "Little Orphan Annie," "Granny" came to our house," "The fishing party," "Max and Jim," "Pa and ma and me, all three," and many others. While all were busy buying and testing the good things.

"The old hand" marched in—  
And stiffer and grander tunes; but  
Somehow—anyway  
I want to hear the old hand play  
Rich tunes as "John Brown's body" and  
"Sweet Allen," don't you know?  
And "The camera is a comit" and  
"John Anderson, my Jo."  
And the impromptu band played them.  
Later in the evening some of the Riley poems were recited—"Ladies' Home Journal."

**WANTED—OLD LADY.**  
The car stopped and on climbed an elaborately dressed lady, followed by a nurse, girl bearing a small boy in her arms. The lady looked entirely too young to be the boy's mother and was dressed in a style becoming neither a young girl. In addition she said no attention what. She began to think they had been deceived in assuming that there was any relation between them. Presently she raised her daintily gloved hand and signified the conductor to stop. Then she stepped gracefully off and made her way to the curb. Looking back indifferently she said—  
"Jane, bring the boy!"  
The boy evidently did not want to come. He clung to the seat in spite of the nurse, whom the find do sole mother called—  
"Boy—boy—come along!"  
And the old lady on the back seat sniffed indignantly and said—  
"Well, I reckon that's one of those new women. She didn't even know her child's name."

**England is an American Power.**  
A glance at the map will show the extent to which Britain is an American power. The following is a list of the British possessions in America, with their respective areas:

Newfoundland and Labrador.....	Sq. Miles, 440,300
Canada.....	3,450,383
The Bermudas.....	100
The West Indies.....	18,175
British Honduras.....	7,663
British Guiana.....	106,000
The Falkland Islands.....	7,500
	<b>3,758,010</b>

Against this the United States possesses a territory of 3,511,000 square miles, being 250,000 less than belongs to the British crown.

**How He Made Himself Pleasant.**  
Brown—How is it you are such a favorite everywhere you go?  
White—Oh, that's easy enough. When ever anything pleasant happens to me I keep it to myself so as to make nobody envious, but all my misfortunes I tell to everybody who will hear me, and you can't imagine how happy they make everybody I tell them to. They say, you know, that misery loves company. I don't know how that is, but company loves misery every time.—Philadelphia American

## LOSS OF VOICE

After Acute Bronchitis CURED BY USING

AYER'S Cherry Pectoral

A PREACHER'S EXPERIENCE.

"Three months ago, I took a violent cold which resulted in an attack of acute bronchitis. I put myself under medical treatment, and at the end of two months I was still unable to speak. I found it very difficult to breathe, and concluded to try Ayer's Cherry

Pectoral. The first bottle gave me great relief; the second, which I am now taking, has relieved me almost entirely of all unpleasant symptoms, and I feel sure that one or two bottles more will effect a permanent cure. To all ministers suffering from this trouble, I recommend Ayer's Cherry Pectoral."

FRIDAY, MAY 29, 1896.

NORWAY PINE SYRUP cures Coughs.

### TYENINAGA RESERVE.

The electrical storm of last Monday night was the outcome of much rejoicing among the farmers in this vicinity as rain was greatly needed.

The sympathy of this community is with sufferers of the late fire which visited your town on May 25.

A political meeting was held in the Council house on Tuesday evening. A large number attended: Jas. Balcanquhall and W. B. Northrup were the principal speakers.

Miss Alice Moser, who first been attending the Mohawk Institute near Brantford for nearly two years, has returned home.

The passage will soon be ready for its next voyage. The Rev. A. G. Smith is expected to arrive within a couple of weeks.

### WESTPORT.

Thos. Sproul has set out two hundred Apple trees.

F. Marshall is rushing the work on his new corn barn.

The Sons of Temperance lodge is in a flourishing condition.

A. Howie lost a valuable cow, it broke its leg in the pasture and had to be killed.

The benefit rain on Monday night was very welcome.

The Misses McLaughlin, of Richmond, were the guests of Miss Kate Sheehan last week.

N. J. Leonard and daughter Annie are visiting his daughter, Mrs. J. B. Boudin, of Prescott.

Dr. Smith spent Saturday last in Belleville visiting his mother who is quite ill.

### NORTHPORT.

Everything that is booming in our little village and new industries are being started daily.

Last week a new shoe shop was opened. They say it is bound to succeed.

Miss Vanhalst, of Napanee, is the guest of Miss H. Fraser.

The town was taken by storm or by lightning on Saturday.

F. B. Clark has come home for a holiday. Election is all the talk of the time but it is hard to place the man.

Misses Vallois, Whitton, McGeachy, and Jamieson were guests at the Ontario Inn Saturday and Sunday.

We are glad to see Mr. Marsh around again and hope he may soon be restored to his duties as Minister.

The young lady cyclist who wheeled to Deseronto to church Sunday evening secured the services of a young man to ride the wheel home and she came "Faster."

Many of our people visited Picton on the 24th.

Miss Christie, of Picton, was the guest of her sister Mrs. W. Barker last week.

C. G. Sprague spent Sunday at Picton. Local chorons were longingly looked for to refresh the herbage of the fields and gardens.

### NAPANEE ROAD.

The heavy fall of rain on Monday night was a great relief to farmers all over a smile on their face. It will make a big improvement to crops.

One of the worst fires for many years shelled this section on Monday night.

Fire could be seen in all directions from our street. Nearly every farmer turned out and gave all the assistance possible; many teams were busy hauling, but it was to save it from burning.

Many Deseronto people who were burned out came down with farmers to find shelter for the night.

Neighbors turned out and put out the fire. Wm. Bowen, who was struck with a pile pole by Sam Davy, will be up before court on the ninth of June.

Many of our neighbors have had their clothes hanging stripped by thieves. A good load of shot would be none too good for such rascals.

Some young ladies passed down on their bicycles on Saturday on their way to Napanee. Our road has been black with buggies since Monday on their way to Deseronto to visit the fair.

Talk is cheap at election time; a little more money and less talk would be better.

The strawberry crop in this section will be a record. It is so much more than any other section in the county.

Messrs. Andrew and Allan Oliver lost their section on Monday night in Deseronto. We hear they were insured but not enough to cover the loss.

Mrs. A. Kimmerly and daughter, of Monticello, are here visiting today.

MALINNE WITH COD LIVER OIL AND HYPOPHOSPHITES FOR LUNG AND THROAT DISEASES.

Perfectly well established is the value of cod liver oil in the various diseases of the lungs and throat, and combined with malinne and the hypophosphites, its remedial value is greatly enhanced. In the elegant and palatable preparation, Malinne with Cod Liver Oil, and that sustainer of vitality and digestive, malinne. No emulsion can compare in its value with this preparation. In addition to disguising the unpleasant taste of the oil and rendering it more easily digested, malinne plays a most important part in maintaining adequately the process of nutrition as essential in wasting and pulmonary diseases. This is done by rendering the fatty acids in a form which assure its assimilation, with a result that emaciation gives way speedily to plumpness, the irritated bronchial tubes are soothed, and grows natural and health becomes an assured fact. Malinne with Cod Liver Oil and Hypophosphites is a food medicine and digestive.

## (Deseronto Fire continued.)

It is said that Mrs. J. H. Gardiner, of Belleville, was the first person to observe the fire. She rushed out to send in the alarm from the box. Others had in the meantime seen it and anticipated her.

It would be invidious to mention the names of all those who did splendid service and for the protection of property. Nevertheless it is only just to state that Mayor Rathbun stood in the midst of the fight through the long hours and directed affairs with his wonted ability and energy.

The following students of the Napanee Collegiate Institute were like bricks and gave valuable assistance—W. B. Vanalstine, A. G. Preston, P. P. Preston, A. G. Brown, F. Grieve, H. Ashley, R. W. Brown.

P. S. Rathbun had gone down the bay for a cruise. He heard of the fire at Napanee and immediately returned. Captain and Engineer Hayes bringing the Sista to Deseronto in one hour.

Ad. C. H. Martin, assistant chief W. Miller and fireman Burke accompanied the Chatham engine from Kingston. The run from Kingston to Deseronto was made in thirty-five minutes—a rate of a mile a minute.

There were several people who owned property who had not one cent of insurance. Most regrettable.

The conflagration presented a magnificent spectacle to people beholding it from the Fredericton shore.

Some assert that a little yacht was at the side of the shingle dock a short time before the fire broke out.

There were reports that several men were drowned, but this arose from the fact of three or four men jumping off a dock to swim to another, their retreat being cut off. Thos. Sager was slightly injured during the fire, being struck by some falling material.

There were no serious accidents during the day.

In the evening Commissioner McCullough swore in about 30 special constables to help in the burning of the town.

Two flat cars were destroyed on a side track.

Burning shingles were picked up four or five miles from town. Some set fire to Hugh Haggerty's fence on the boundary road.

The Mohawks of the Reserve have, through Agent Esgar, sent in large quantities of lumber, eggs, potatoes, meat, etc., for the refugees.

The Napanee fire engine was under the charge of Engineers Mair and Stevens. High water on the river caused delay. All under the command of Chief Savage. They were willing workers and did excellent service. They were voted a fine lot of money for their services.

Those citizens who were in Kingston, Picton and elsewhere were in a state of great apprehension. They heard exaggerated reports of the burning of the town. It was asserted on the best of evidence that there were men belonging to the town who did little or nothing in the way of assistance on the day of the fire.

The telegraph and telephone wire along the front were demoralized by the falling of posts and smokestacks, and messages could not be sent.

Supt. Hampton has had a strong force of men effecting repairs.

Many in the West end of town supposed that the town was on fire. The fire was all the work in the East end had been burned.

It was almost impossible for some time to get on either side of the burning fire. The fire was all the work in the East end had been burned.

Trains had to stop at the Terra Cotta station. The fire was all the work in the East end had been burned.

Rev. R. Taylor and family had of course, to vacate the parsonage. Their household effects were sadly damaged in removal. The parsonage was one of the critical points in the fire.

In all about 70 houses were burned and 80 families rendered homeless.

Much furniture, placed on the hill for safety, was burned by flying cinders.

### GREEN POINT.

Mrs. A. Vandusen and J. E. Carman went to Kingston this week and brought home Mrs. Carman who has been for some time in hospital in that city.

Mrs. Carman is slightly improved and hopes to progress favorably. All three express themselves as highly pleased with the management of the hospital and the kindness and attention shown by all the staff, particularly by Dr. L. Wood and his wife who were unwearied in their attentions, even accompanied them to the wharf. It is needless to say that the kindness is most highly appreciated.

Mrs. Lavina Carman arrived here yesterday from Chicago where she has been staying for four years with her brother-in-law, Mr. Doole, and is now at Thos. Carman's. She is accompanied by Miss Doole.

How to Lace Shoes.

Few people lace their shoes correctly. About the nearest anybody gets to it, is to lace as tightly as possible. The correct way is to put your foot as much as possible in the heel of your shoe, when you are about to lace it.

The best way to do this, is to rest the heel of your shoe on a chair standing in front of you.

Over the instep it should be laced as tightly as possible, this will hold your foot back in the shoe, give your toes freedom, and prevent their being cramped.

Lace above your ankle to suit your foot.

## DOUGLAS' EGYPTIAN

For the last twelve months I have been perfecting a Sulky Gang Plow, and to-day I have out that has no equal on earth, in a riding or walking Plow. It will plow 2 inches or 10 inches deep and will do the work equal to any single plow ever put in the field. It is the only plow manufactured with steel heads; it is calculated that every plow will break two heads during its lifetime, which means \$3.00; then the steel head is lighter, and being stronger enables us to raise the beam higher which prevents choking and allows deep plowing. Then our Patent Seat Attachment is a dandy. As you know we have always led in the Gang Plow trade, and we have now made another leap which leaves our competitors a long way behind. Walking plows for \$10. Don't forget that we retail the best plow buggy on earth at wholesale price; five styles of road carts, from \$15; a nice single harness for \$9. Did you ever see our steel wagon and celebrated wagon 'prigs? Do you want a windmill? We have the latest thing in an aerator. We have the only corn cultivator that will cut and kill the weeds, five styles from \$6. Our horse turnip drill is the best made. Call and see our double mould-board plow which makes any width of turnip drill, hoes and dig your potatoes. We have the only sure corn planter made. The best and cheapest machine and harness oil by barrel or gallon. We are doing an enormous trade in bicycles. A dozen styles to choose from. Our "Special" leads the class; considering the quality it is the cheapest machine to-day made. An 1 1/2 p. writer for \$45.

## Scott's Emulsion

Has been endorsed by the medical profession for twenty years. (Ask your Doctor.) This is because it is always palatable—always uniform—always contains the purest Norwegian Cod-liver Oil and Hypophosphites.

Insist on Scott's Emulsion with trade-mark of man and fish.

Put up in 50 cent and \$1.00 sizes. The small size may be enough to cure your cough or help your baby.

When you ask for Scott's Emulsion and your druggist gives you a package in a salmon-colored wrapper with the picture of the man and fish on it—you can trust that man?
